FR No.	Non-Functional Requirement	Description
NFR-1	<b>Usability</b>	People expected to be able to click on almost any non text element that was displayed by an interaction bot.It will save time to many customers
NFR-2	<b>Security</b>	It is used often in web applications to conduct customer service and collect information via chat. Because of the personal data collected through a chatbot, a Privacy Policy might be mandatory.
NFR-3	<b>Reliability</b>	Chatbots can instantaneously provide information, recommendations, and assistance, shifting through databases of thousands of clothing items in seconds.
NFR-4	<b>Performance</b>	With their ability to answer simple customer queries, bots enable luxury brands to scale personal shopping services and ensure the best use of their employees' time and knowledge
NFR-5	<b>Availability</b>	Have chatbots on your website around the clock to maintain your online presence after hours and continue collecting leads
NFR-6	<b>Scalability</b>	Retail chatbots also encourage shoppers to buy more through upselling and cross-selling opportunities. These factors come together to drive revenue and significant returns for brands.
